

Coxmate Modular Harness Systems: Assembly

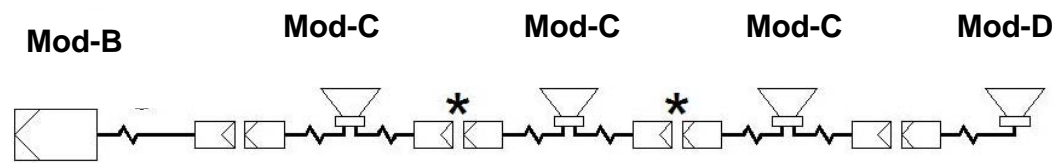

CH4-AA-Mod-Kit

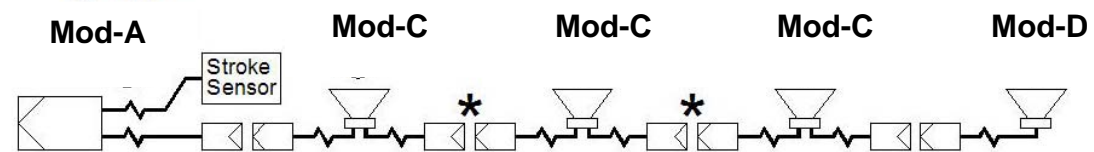

CH4-SR/SC-Mod-Kit

CH8-AA-Mod-Kit

CH8-SR/SC-Mod-Kit

* If the boat is sectioned into two for transport then the Section Cap Kit should be fitted at the location nearest the join. To fit, plug in the blanking caps into both halves of connector and fix straps to cable with cable ties.

There is a longer version of the C – the C+. This enables eights to be fitted with two or three speakers, and fours to be fitted with one speaker.
